Biswas Nandamuri

Unit 13, 1A Main Dr, Bundoora, VIC - 3083
M: 0421 734 594
W: www.biswas.coffee
E: biswas.nandamuri@gmail.com

Career Objective:
Looking forward to associating myself with an organization where there is an opportunity to learn, contribute and upgrade my creative and innovative knowledge for the development of myself and the organization.

Education:

Master of Information and communication Technology *Feb 2017 - Dec 2018*
Latrobe university
Melbourne, Australia
Subjects included: Software Design Methodologies, Networking, LAN/WAN Troubleshooting and Web Development

Bachelor of Electronics and Instrumentation Technology *Feb 2012 - May 2016*
VNR Vignana Jyothi Institute of Engineering and Technology
Hyderabad, India
Subjects included: Signals and Sensors, Automation, Robotics and Analytical Instrumentation

Skills:

- **Programming Languages:** C, C#, Python, JavaScript, Go, PHP, Rust
- **Tools:** Git, DevOps (Ansible, Jenkins)
- **Database:** (SQL) MySQL, PostgreSQL, (No-SQL) MongoDB
- **Technologies:** Dotnet, Angular/React, Django, Laravel, Bootstrap/Bulma
- **Software:** Visual Studio, VS Code, Jupyter, PHPStorm
- **Operating Systems:** Ubuntu, Arch Linux, Windows, MacOS
- **Graphics Design:** Photoshop, Illustrator, Adobe XD

Employment:

Academic Tutor *Feb 2019 – present*
La Trobe University (www.latrobe.edu.au)

- Tutoring and Mentoring undergraduate and postgraduate students with practical lab sessions and assignments involving subjects like C, Python, Angular and Java.

Software Developer *June 2018 – Feb 2019*
Brimbank City Council (www.brimbank.vic.gov.au)

- Designed and developed a full stack web application to automate the M1 process of establishing a data synchronisation between state and council levels using PHP's Laravel (Backend API) and JavaScript's React (Frontend) stack.

Projects

Personal Website: www.biswas.coffee (for additional information)

Mediterranean Archaeology – Major Project (Masters)

- Extracted data from 800 pages book using "Python" and "Pdfminer" library
- Stored data using PostgreSQL
- Developed a Django (REST API) - React Js (Single Page) application to perform CRUD operations on the extracted data.
- *Used: Python, Django, PostgreSQL, React JS, SASS, Bulma*
- *Documentation: https://docs.biswas.coffee/Mediterranean-Archaeology.pdf*

M1 Automator – (Done at Brimbank City Council)

- Compared 100 Thousand local and state government records, established a data synchronisation using Python's Pandas library
- Created a Laravel – Vue JS based dashboard application to view the synchronisation statistics and generate reports.
- *Used: PHP, Laravel, Python, Flask, MySQL, Vue JS, SASS, Bootstrap*

BiswaCoin (https://github.com/Biswas-N/BiswaCoin)

- Implemented Blockchain's "Proof of Work" concept using JavaScript
- Built a console-based desktop application using JavaScript's Encryption library and string library
- *Used: JavaScript*

Sound based fire extinguisher – Major Project (Bachelors)

- Build an Arduino based circuit, which emits low frequency waves to extinguish fire
- *Used: Arduino Micro-controller*

Rust-Spotify Adapter (InProgress)

- Rust-Lang based application to consume Spotify's Api. Involves bearer token auth system, accessing authorised user's music and podcast library.
- *Used: Rust, WebAssembly*

Awards and Achievements:

- Cisco certified Network Associate (given by Cisco Systems - 2018)
- Best project of the department (given by VNR Vignana Jyothi Institute of Engineering and Technology)
